

Pitch Deck Studio

From your data room to an investor-ready deck — at machine speed, with our experts in the loop.

Investor-grade decks from your own materials.

A polished, investor-grade pitch deck — drawn straight from the documents you already have and shaped for the investors you're pitching. **Standardized, fast, and consistent, in days rather than weeks.** No blank page: AI on the ORQO platform builds the deck investors recognize; our human experts keep the narrative and the numbers honest.

- No blank page
- Ready in days
- Investor-recognized structure
- Yours to keep

HOW IT'S BUILT

Your materials in, a finished deck out

STAGE 01 Understand

We read the due-diligence material and work out your real story.

- Reads memos, model & customer proof
- Inside infrastructure we control
- Finds the story worth telling

STAGE 02 Concept & skeleton

A deck concept and outline optimized for your audience.

- Shaped for the investors you're pitching
- The angle that fits your business
- Expert-steered narrative

STAGE 03 Build the deck

The finished, polished deck — built on the concept and reviewed.

- Drawn from your own materials
- Narrative & numbers reviewed
- Finished, and yours to refine

Shaped for your audience — and yours to keep. The concept and outline are optimized for the specific investors you're pitching; the finished deck is drawn from your own materials, expert-reviewed for narrative and numbers, and stays yours to refine.

DESIGNED TO LAND

- **15–25 focused slides** — not a dozen overloaded ones
- **One key claim per slide**, in few words
- **Strong visuals** over dense text
- **A faster pace** the brain can follow

WHY IT'S DIFFERENT

PITCH DECK STUDIO

- ✓ Built from your own materials
- ✓ Audience-optimized concept
- ✓ Neuroscience-informed pacing
- ✓ Imagery picked by AI vision
- ✓ Ready in days — yours to keep

Imagery chosen by eye. We use your own photos — and where founder media isn't presentation-grade, the studio gathers candidates from Unsplash and the AI uses real vision to pick the image that best supports each slide, not a keyword or a filename.

IDEAL FOR

- ✓ Founders preparing to raise
- ✓ Seed to Series A companies
- ✓ Teams with materials but no deck
- ✓ Reworking after investor feedback
- ✓ On a tight fundraising timeline

Let's build your deck — **together.**

Start a short conversation about turning your materials into a deck that's ready for the room.
